Package Contents:

Mi Smart Air Fryer 3.5L x 1;

Frying pan x 1; Grill x 1;

User manual x 1

Healthier Cooking

Instead of conventional cooking methods, Mi Smart Air Fryer 3.5L leverages a 1500W heating tube to generate a circulation of heated air to heat up the food quickly and evenly. This process helps remove some oil in the food itself so it lowers users' calorie intake. Mi Smart Air Fryer 3.5L offers a wide temperature setting range from 40 to 200 celsius so it is versatile for not just air frying, but also de-frosting, baking and more.

Easy Schedule

Made as a smart piece of kitchen appliance that can keep up with every modern lifestyle, Mi Smart Air Fryer 3.5L allows users to flexibly schedule their meal for up to 24 hours in advance, while also opening up endless cooking possibilities, be it yogurt fermentation or pet food dehydration.

Smart Controls

When connecting the device to Mi Home app, users can easily control the device and access over 100 easy-to-cook recipes for quick inspiration on their everyday meal². The device further elevates the smart experience with an OLED display at the front that provides real-time viewing of cooking status, as well as capability to voice command the device to have it start, pause, or check remaining cooking time using Google Assistant and Amazon Alexa³.

Family Choice

Despite the compact size, the product provides a 3.5L large capacity that can satisfy up to 5 family members' food portions. The food space is further expanded with the in-box grill. Mi Smart Air Fryer 3.5L adopts a removable drawer and a non-stick coating, making it super easy to clean.
